TRESER Audi Super 5000

TRESER Audi EXCLUSIVE GERMAN HANDMADE CARS AND STYLING

Treser is the Number One address for the development of high quality special parts and exclusive automobiles for Audi.

A team of highly qualified specialists, designers, engineers, body and fender specialists, engine technicians and upholstery specialists develop and produce our products in high-quality hand finishing.

What all Treser products have in common is a technical beauty which shows in functionality, quality and attention to detail. The close cooperation with the Audi factory guarantees fully developed technics and progressively new offerings.

Owning unique automobiles has always been something special. The Treser Audi is the paragon of the technically and optically refined Audi automobile, a make with a great tradition in automobile history.

Walter Treser, founder and director of TRESER GmbH is an automotive and aeronautical engineer. Before starting his own company Mr. Treser was a race driver and engineer at Daimler Benz, manager of the test division at Pirelli, leader of the pre-development at Audi, project manager of the Audi Quattro and leader of the Audi Sport Division.

The Treser turbine wheel with vanes for better brake cooling. Michelin TRX Super low profile tires 230/45 VR 415.

The Treser suspension with special springs and more stable sports shock absorbers.

The Treser sport exhaust with double tailpipes. The exclusive sound for your Treser Audi.

TRESER Audi Supra 5000

The Treser steering wheel is the first fully ergonomic steering wheel with a grip that lays beautifully in the hand. Exclusive interior with special de Luxe seats and genuine leather upholstery at option.
